

My favorite season

My favorite season is **fall**; I truly love it. I love it because it is a beautiful time of the year. I love the **windy and cloudy** days, that is my favorite weather.

I love the brown color of the tree leaves and the way they crunch when you step on them. I also love the traditions in this season.

Day of the dead (*Día de Muertos*) and Halloween are my favorite because you can watch spooky movies, bake a pumpkin pie or go treat-or-tricking. Finally, it is the time when we come

back to school and we get to see our friends again. There are so many things I love about this season.
